Minister Rockhill Said to Have  
Paid Scant Attention  
to Miss Alice.

VICTORIA, B. C., Oct. 11.—Mail advices by the Express of Japan included a Manila dispatch to the Japanese Ambassador of Yokohama, which states that Gen. Corbin severely censured United States Minister Rockhill at Peking.

The Minister is charged with dereliction of social duty in the provisions made for the reception and entertainment of the President's daughter and party at Peking.

The advertiser says: "Excessive mismanagement of the reception and direct discourtesy on the part of the Minister are charges freely made. The returning party say the marked scantiness of attention paid them was sufficient to elicit surprise from the various legation staffs of the other Peking embassies."

## MINISTER AND FAMILY FIGHT FIRE IN HOME

Rev. D. Parker Morgan  
Hastily Organizes a  
Bucket Brigade.

The servants and members of the family of the Rev. D. Parker Morgan, led by Policeman Carroll, of the East Fifty-first Street Station, organized themselves into a bucket brigade today and extinguished a small fire in the clergyman's home at No. 8 East Forty-first street, before the fire apparatus arrived.

The fire started from the collapse of a chandelier in the dining-room. One of the jets had been burning low all night and when a servant attempted to turn it out this morning the chandelier came down with a crash and the gas blazed up from the main pipe, setting fire to the paneled ceiling.

The fire ran out into the street crying fire and Policeman Carroll went to her aid after turning in an alarm. Before attacking the fire he went to the cellar and turned off the gas. Then he got a bucket brigade together, and after a few minutes' work put out the blaze.

## PARROTS OWN SHIP AWHILE

Passengers Attacked and Driven  
Below Decks on Steamer  
Mexico by Big Birds Escaped  
from Cages.

Parrots—not puffed—terrorized the passengers aboard the steamship Mexico during its voyage from Panama. The ship arrived here today. Last Sunday the Mexico encountered a gale and during the rough weather some of the 200 parrots aboard escaped from their cages and set up an unearthly screeching.

The passengers, thinking members of the crew were coming in to help, rushed on deck. The first man to show himself was attacked by a big red parrot, which tore his coat and set blood flowing from his face.

The parrots eventually turned upon one another, and after some had been killed and others exhausted, quiet was restored.

years old, chief clerk for Maxwell & Lacey, advertising agents at No. 104 Nassau street, was today arrested and held in \$1,000 bail. The prisoner's own brother informed his employers of the clerk's preparations for flight.

According to Mr. Maxwell Porter, who lives at No. 812 Rutledge street, Brooklyn, was given a job last Christmas time when the young man was released from Elmira. His salary was \$5 a week. This was increased a month later, and Porter soon worked his way up until he was chief clerk. He was responsible for the mailing and stamping of all letters and for incoming mail. He was entrusted with the money to

purchase large quantities of stamps for the mail business and opened all letters for the firm.

For some time past, Mr. Maxwell said, the firm has noticed a gradual falling off in replies to their letters and that certain extremely important ones failed to reach them. Mr. Maxwell a few days ago accidentally upset an ink bottle at the office and found scores of un-answered letters were about, having been mailed. He said he found four hundred of unopened letters concerned in even more and cranny of the office.

Detectives Ferguson and Allen, of the Oak street station, arrested Porter and took him before Magistrate Stone. In default of \$1,000 bail the prisoner was taken to the Tombs.

Dr. Anderson, the renowned and expert Specialist upon Lung Diseases, has become famous not only for the hundreds of cures that he has made of these diseases, but also because of the invention of his marvelous Anderson X-Ray, the first and only means ever given to medical science whereby diseases of the lungs and bronchial tubes may be detected in their earliest stages and while they are in a curable stage.

An early diagnosis is the first and most essential necessity for a successful cure of a lung disease. Precious time is so often wasted by the general practitioner and family doctor, who has no way of finding out just what is the trouble at the start, and the disease is allowed to reach the destructive stage, when it might readily have been cured if it had been recognized and properly treated from the beginning.

Dr. Anderson's success since he has used the perfected X-Ray proves that many are cured easily today who have been given up as hopeless cases. He is the foremost

of the expert Lung Specialists who began the war upon consumption, and was among the very first of progressive physicians to state that, as a disease, consumption is as curable as any other disease.

Dr. Anderson uses his Germicidal Vapor Inhalation treatment, whereby the patient breathes directly into and all over the entire area of the nose, throat and lungs the heavy, oily medication to the spot seat of the disease, soothing, healing, and cleansing all the air passages.

It kills the germs, prevents any further progress of the disease and produces renewed strength and health and cures by a rebuilding process. He also gives, in addition to this, his original electro-vibrator treatment. It is now well-known that electricity is germicidal in its effects.

No case of disease requires the attention of a specialist so much as Throat and Lung Diseases.

Dr. Anderson is the only X-Ray Lung Specialist in New York, and he gives a personal consultation and examination and one treatment at his office free. Consult a Specialist at once and learn the truth about your lungs. Do not wait until incurable conditions develop. Charges are less than those of the ordinary family doctor.

Dr. Anderson's office is located at 50 West 22d st., New York, between 5th and 6th aves. Hours—Daily, 10 to 5 (Sundays, 11 to 2); Monday, Wednesday and Friday evenings till 8 o'clock. If unable to call, write for particulars about home treatment.

## SOME FACTS FOR CONSUMPTIVES On Throat and Lung Diseases

By Dr. Anderson, Expert Specialist.

A persistent cough is at first really a friend, for it gives warning of the approach of a deadly enemy. If the warning is unheeded, you have only yourself to blame for neglecting one of nature's danger signals. Don't delay until your lungs are partly gone. Kill the enemy, tuberculosis, before the enemy kills you.

If you are trifling with Consumption, Asthma, Bronchitis, Catarrh, you are trifling with a very grave and serious thing indeed. Learn your ailment at once.
